Flowchart 1: How do I find A^n or $f(A)$?

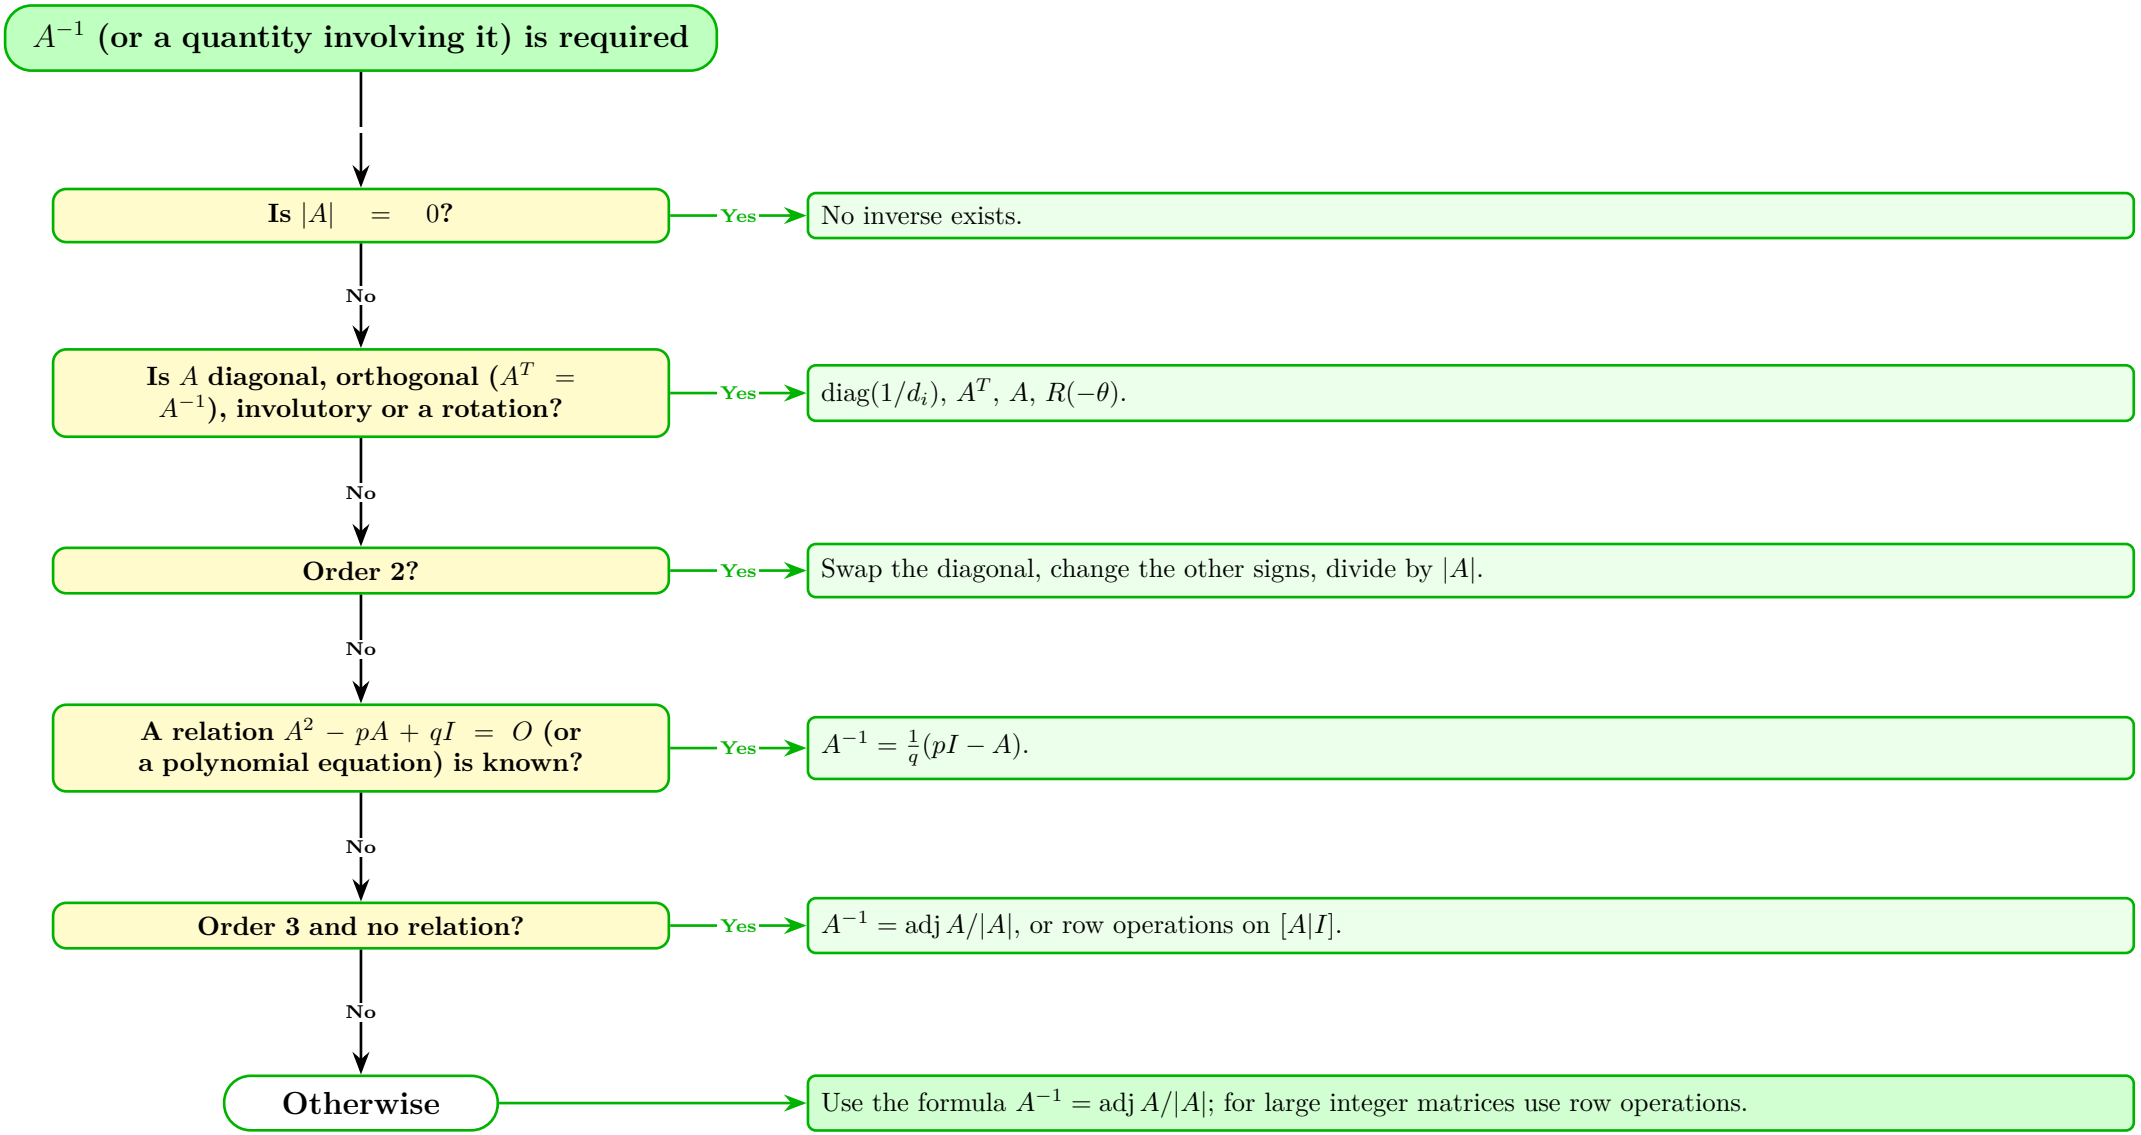

Flowchart 2: How do I evaluate an expression with adj, inverse, scalars and determinant?

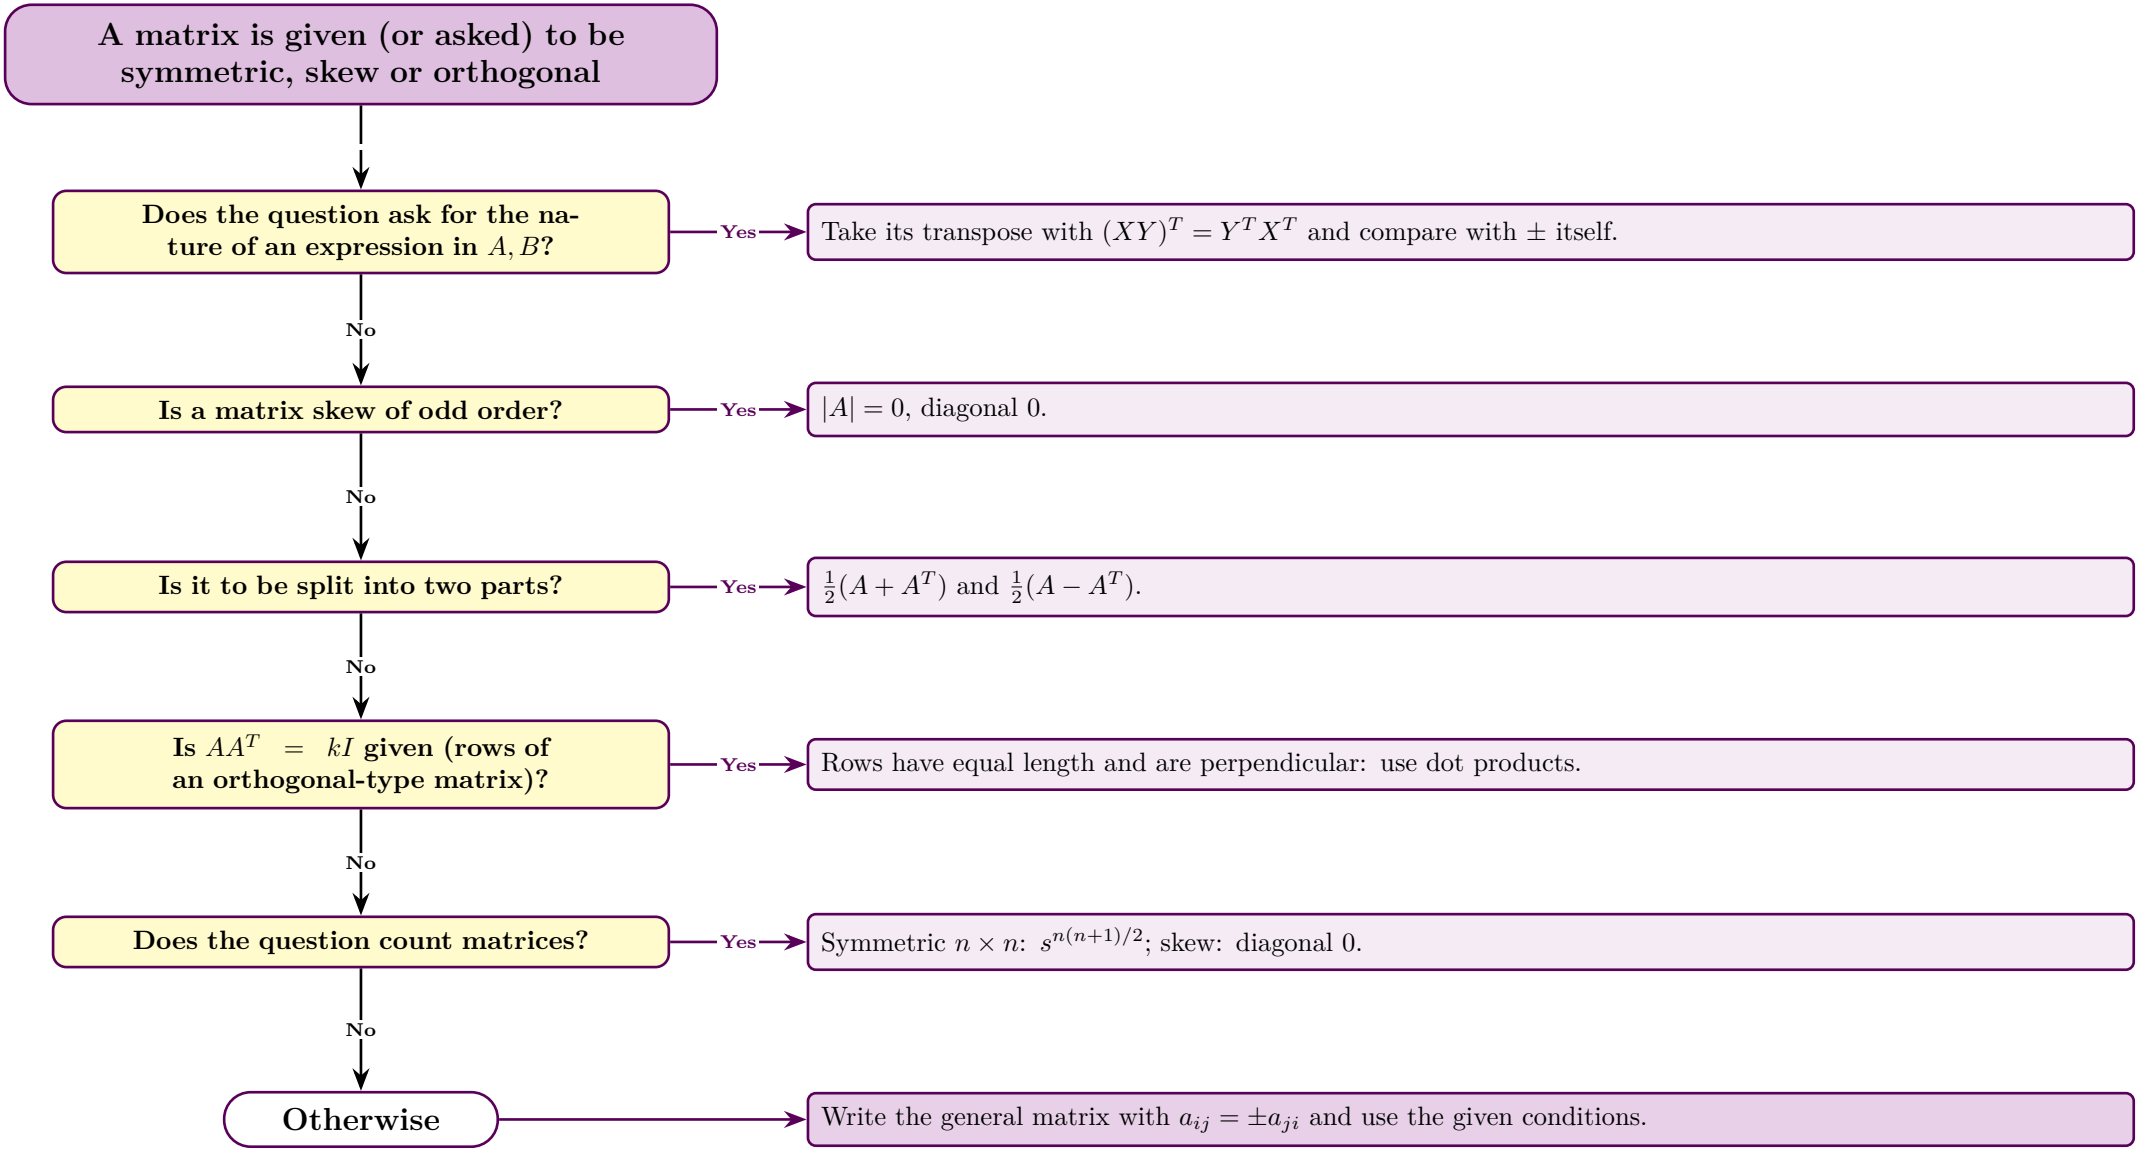

Flowchart 3: What do I do with a given relation among matrices?

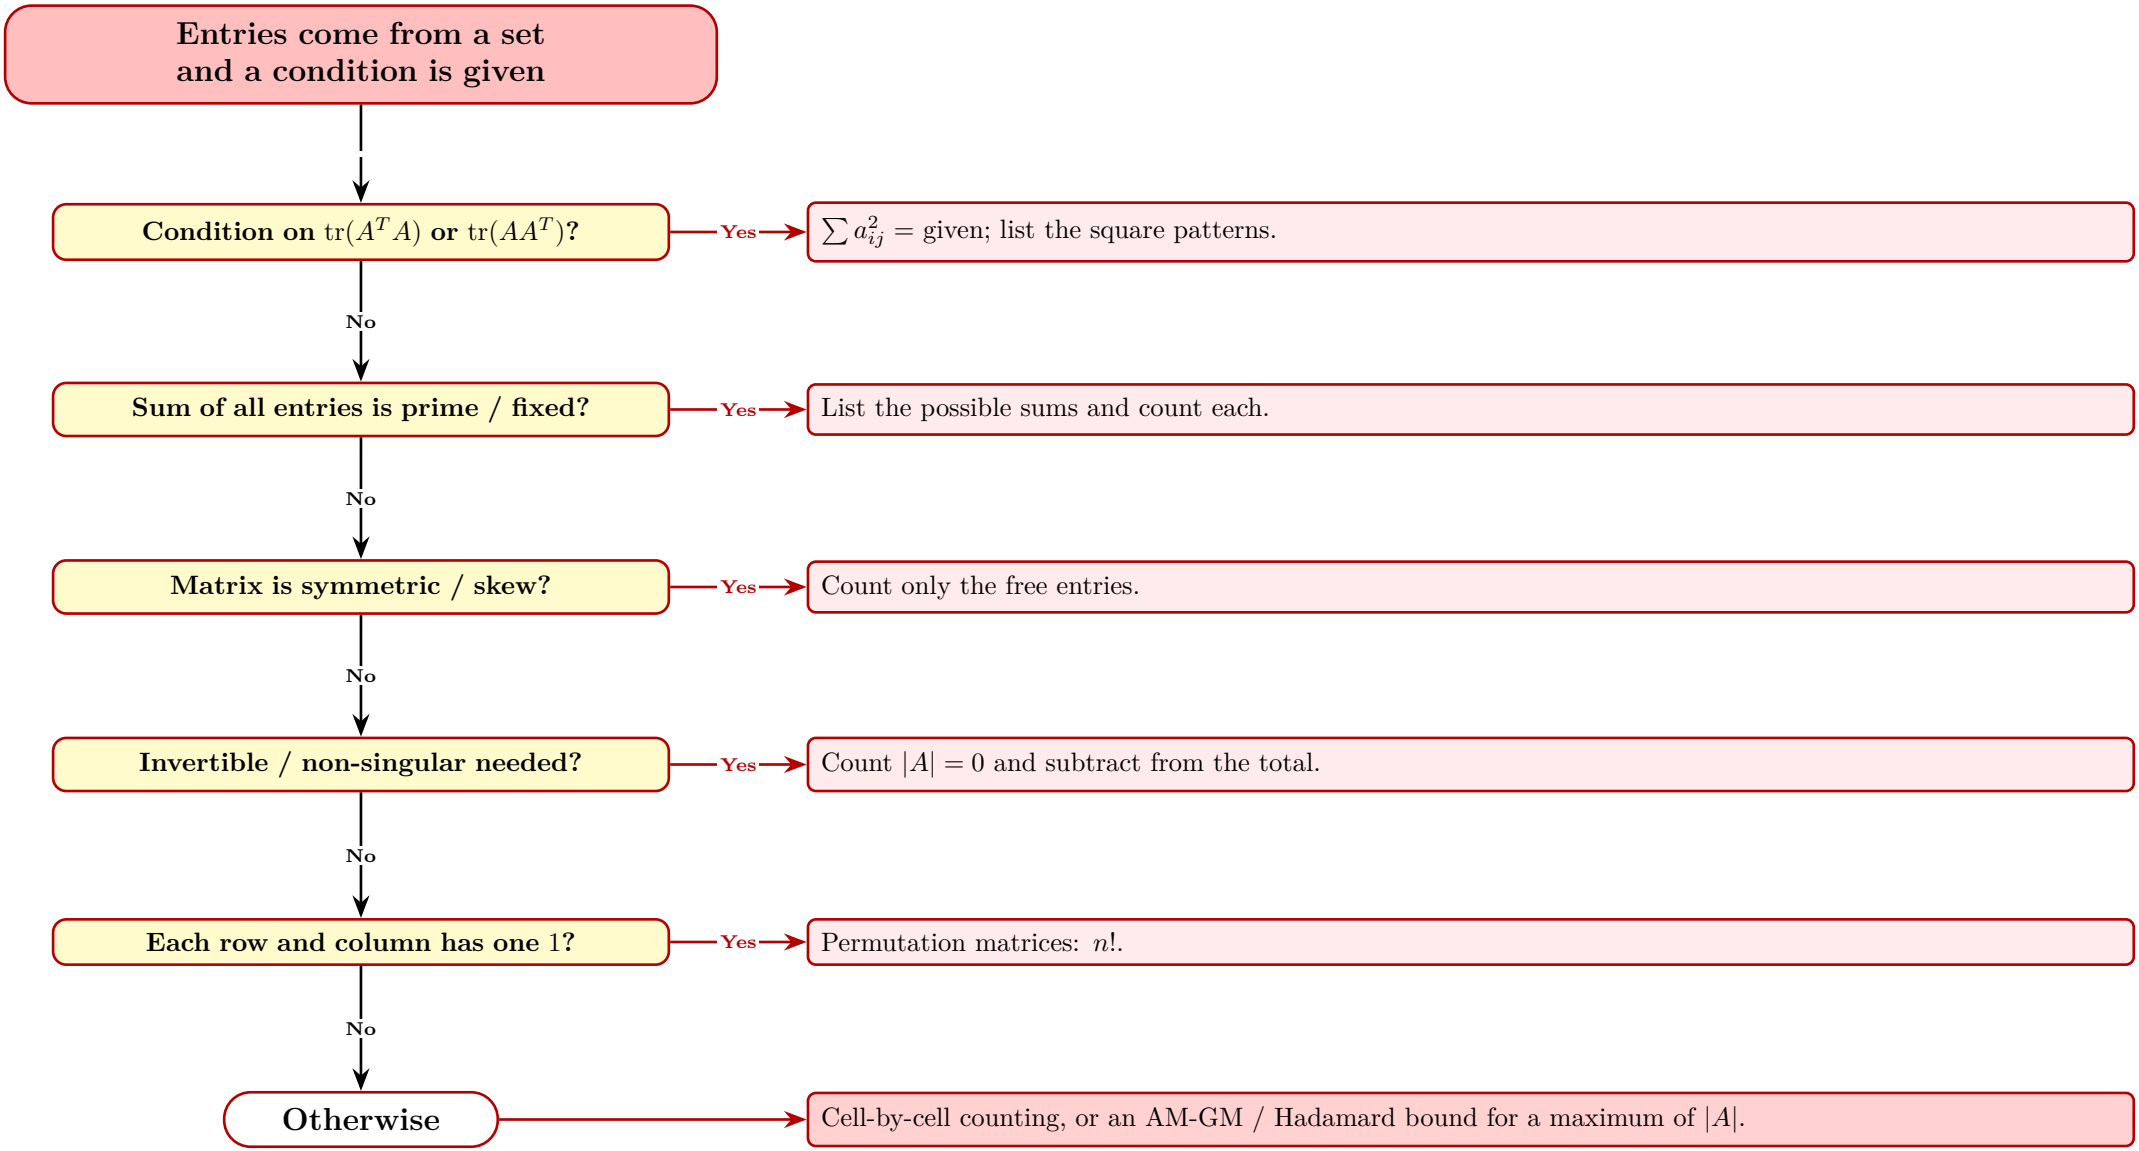

Flowchart 4: Which method finds the inverse?

Flowchart 5: Symmetric, skew-symmetric and orthogonal questions

Flowchart 6: How do I count matrices or find an extreme value?

Flowchart 7: Systems, matrix equations and matrices defined by action
